

Signature Stogies

Cigar Talk

Signature Stogies has a unique patented process of engraving logos, text and symbols directly onto the surface of cigars. Each mark is extremely accurate with excellent contrast and can be used on any cigar with a medium to dark wrapper. The process is environmentally safe and does not affect the integrity of the cigar. Signature Stogies uses high quality Dominican made long filler cigars, that provides the perfect balance of taste and flavor. We are confident that you will leave a lasting impression with a Signature Stogie.

*Make an Impact Without
Saying a Word!*

**What does your cigar
say about you?**
